Career Objective

Passionate MERN Stack Developer and UI design enthusiast with strong experience in building responsive, performance-optimized, and user-centric web applications. Skilled in React.js, Node.js, MongoDB, and modern front-end practices, with an understanding of scalable architectures and clean coding standards. Interested in contributing to high-quality production-level applications and open-source ecosystems such as WordPress, while delivering intuitive UI solutions using tools like Figma. Seeking opportunities to apply innovative problem-solving skills in real-world, large-scale software projects.

Education

Bachelor of computer science and engineering, -**PPG Institute of Technology,coimbatore.** 2022 – 2026

- GPA: 8.1/10

Higher Secondary Certificate (HSC) -**Variyar Higher Secondary School** 2020 – 2021

- Acquired: 81.3

Secondary School Leaving Certificate (SSLC)- **Variyar Higher Secondary School** 2019 – 202
Acquired: 91.6

Skills

Programming & Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Python, SQL

Soft/Business skills: Time Management, Team Management.

Design & Tools: Figma (UI/UX Design, Wireframing, Prototyping), Git,GitHub, Postman, VS Code

CMS: WordPress

Languages: Telugu ,Tamil,English,

Internship Experience

Prompt Infotech – Web Designing & Development Internship

- Completed hands-on training in web designing and development, gaining practical experience in creating responsive and interactive websites.
- Learned to implement HTML, CSS, JavaScript, and basic backend integration for dynamic web applications.
- Developed a small project that demonstrates UI/UX design principles and functional web features.

AICTE – Microsoft & Edunet Foundation – 4-week internship on Foundations of Artificial Intelligence

- Gained foundational knowledge in Artificial Intelligence concepts, including machine learning, neural networks, and AI applications.
- Explored Python-based AI libraries such as TensorFlow and scikit-learn through guided projects and exercises.
- Completed mini-projects that involved AI model training, testing, and evaluation, enhancing problem-solving skills in AI.

Infygain – Frontend Developer Internship (1 month)

- Focused on frontend development using HTML, CSS, JavaScript, and React.js for building interactive web interfaces.
- Learned to integrate APIs, manage state, and create responsive designs for different devices.
- Developed a mini web application demonstrating end-to-end frontend implementation and UI optimization techniques.

Certifications

MERN Stack Web Development	Jan 2025
• Naan Mudhalvan Program — Full-stack training in MongoDB, Express, React, and Node.js with practical projects and industry exposure..	
Oracle Cloud Infrastructure Foundation Course	Jul 2024
• Basics of cloud infrastructure, storage, compute, and networking.	
ICT Learnathon	Jan 2025
• Participated in a tech-based learning marathon for innovative solutions.	
Teckno KreatiCon – Project Pitch	Feb 2025
• Presented innovative tech project ideas in a competitive event.	
Robomatic MySQL, MongoDB	
• Certified in Database Management (MongoDB & RDBMS) – Robomatic	
IBM SkillBuild	Aug 2025
• Artificial Intelligence Fundamentals	

Projects

Internship Project – Portfolio Website	portfolio
• Description: Designed and developed a personal portfolio website to showcase skills, certifications, and projects.	
• Tech Stack: HTML, CSS, JavaScript, React	
Naan Mudhalvan – To-Do Web App	Todo-Task-Web-App
• Description: Built a task management web application with CRUD operations and user authentication.	
• Tech Stack: MERN Stack (MongoDB, Express, React, Node.js)	
PMKVY – Food Delivery Website	Foodie
• Description: Created a web application for ordering and delivering food from local restaurants.	
• Tech Stack: HTML, CSS, JavaScript, React	
Mobile App Development – Travel Planning & Tracking App (Contribution)	Travel Planning Tracker
• Description: Collaborated in building a mobile application Travel Planning & Tracking App.	
• Tech Stack: Kotlin, Java	
Naan Mudhalvan Hackathon – Habit Tracker	Habit Tracker
• Description: Developed a habit tracking web application during a hackathon, enabling users to set and monitor daily habits.	
• Tech Stack: MERN Stack	
AI Chatbot	
• Description: Developed AI chatbot using Gemini Model	
• Tool: N8N	
Booking App - UI Design	
Tool: Figma	
Custom WordPress Blog – Responsive Blog Theme Development	
• Developed a fully responsive custom WordPress blog theme from scratch. Tech Stack: MERN Stack. Implemented custom template hierarchy	

Declaration

I hereby declare that the information given above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the particulars mentioned.
